IPVideoTalk Conferencing Service

The business world requires more mobility than ever before. Employees are always out of the office, businesses with multiple office locations have increased, and home/remote workers are more prominent than ever before. In order to succeed, businesses need a tool that allows them to keep their workforce connected, efficient and productive - no matter where they are. Enter Grandstream's IPVideoTalk, a web meeting and collaboration platform that allows organizations to hold powerful remote meetings, classes, and sessions that can be attended from nearly any device, including PC, Mac, and iOS/Android devices with the free IPVideoTalk app. With IPVideoTalk, you can now hold meetings, video conferences, or audio conferences that your team can join from wherever they are.
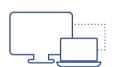

Full HD Video
Industry-leading 1080p Full HD to maximum quality and clarity

HD Audio
